YOUR AGILE PARTNER
"TOTAL COST OWNERSHIP"

— WAF AT A GLANCE —

ONE STOP SOLUTION FOR MOSTLY USED METAL WORKING FLUIDS

"TOTAL COST OWNERSHIP"

Welcome to Witmans Advanced Fluids, one of the leading manufacturers in India. With our ISO 9001:2008 certified plants and group's existence since 1989, we have been in the forefront of metal working and lubricant industry.

Your One - Stop Solution for Metal Working Fluids

At WAF, we are at the forefront of providing high performance & consistent quality metal working fluids in India. Our product basket supports end to end need & solutions for any manufacturing organization.

Innovative Solutions for Industries

At WAF, we are at the forefront of providing cutting-edge metal working fluids in India. Our advanced formulations empower industries to boost productivity, enhance surface finish, and reduce machining costs.

WHY CHOOSE US?

Expertise : With decades of experience in the industry, we possess the technical knowledge and expertise to provide tailored solutions for diverse industrial applications.

Quality : With 34 years of manufacturing experience, our QA/QC labs ensure quality from raw material to finished goods. The state of the art facilities accredited with ISO 9001 at Daman and Thane ensures consistent quality Products.

Innovation : We constantly strive to stay ahead of the curve by investing in research and development. This allows us to offer cutting-edge lubricant solutions that are at the forefront of industry advancements. Our European partners help us introduce the most advanced technologies in our field.

**WE ENSURE TOTAL COST OWNERSHIP
AND GUARANTEED SAVINGS**

OUR TECHNOLOGY PARTNERS

Oest (Germany) has been an expert developer and producer of metal-working fluids from 1960.

Oest is Pioneer in Development of Extreme Performance Synthetic Cutting Oils, Vegetable Based Neat Cutting Oil, Mist Oils, Carbide Grinding Oils and VDA Approved Body Stamping Fluid

Tribo-Chemie, A Germany Based Lubricant manufacturer which specializes in the production of release agents for high-pressure die casting of Al, Mg & Zn alloys, all kind of Hot & Warm Forging lubricants for the forging industry & specialized coatings for Deep Extrusion.

OUR APPROACH TOWARDS REDUCTION OF TOTAL COST

High Performance Stable Bio Static Cutting Fluid

Reduce MWF Consumption

Enhance Productivity

Total Fluid Management

Zero Liquid Discharge

FORGING OIL

- GRAPHITE BASED FORGING FLUIDS
- NON GRAPHITE BASED SYNTHETICS
- BILLET COATING
- COATINGS FOR DEEP EXTRUSION

BODY STAMPING/FORMING/ DEEP DRAWING

- BODY STAMPING OILS (VDA APPROVED)
- EVAPORATIVE FORMING FLUIDS
- PIPE PILGERING OIL
- TUBE FORMING / PIPE BENDING / DEEP DRAWING FLUIDS
- STAINLESS STEEL HEADING FLUIDS

DIE CASTING FLUIDS

- DIE CASTING FLUIDS FOR LPDC
- DIE CASTING FLUIDS FOR HPDC
- PLUNGER LUBES
- ADVANCED DIE CASTING PRODUCTS

WATER BASED CUTTING OIL

- SOLUBLE CUTTING OIL
- SEMI SYNTHETIC CUTTING OIL
- BIO STATIC ESTER BASED
- SYNTHETICS
- SYNTHETIC HD MAGIC COOLANT (HIGH TOOL LIFE GUARANTEED)

NEAT CUTTING OIL

- MINERAL OIL BASED
- VEGETABLE ESTER BASED
- GTL BASED
- MIST OIL
- CARBIDE GRINDING OIL

HEAT TREATMENT OIL

- COLD QUENCHING OIL
- HOT QUENCHING & MARTEMpering OILS
- DUAL PURPOSE QUENCHING OILS
- PAG POLYMERS
- OIL TYPE QUENCHING (PVP POLYMERS)

CLEANERS

- AQUEOUS CLEANER
- SOLVENT CLEANER

RUST PREVENTIVE OILS

- SHORT TERM / INPROCESS RP
- MEDIUM TO LONG TERM RP
- WATER SOLUBLE SHORT TERM RP

MAINTENANCE FLUIDS

- HYDRAULIC OIL/LUBRICATION OIL
- FIRE RESISTANT HYDRAULIC FLUIDS
- GEAR OIL / EP & XP GEAR OILS
- MACHINE LUBES / SPINDLE OILS
- ENGINE OILS

ZERO LIQUID DISCHARGE

- ZERO LIQUID DISCHARGE SYSTEMS (UNIQUE PATENTED TECHNOLOGY)
